

TECHNICAL DATA SHEET

● PRODUCT NAME : SBP-360

Typical Physical Properties

Product name	SBP-360
Chemical Type	Styrene-Acrylic
Polymer Type	Emulsion
Appearance	Milky-white liquid
Use	Paper Coating
Solid content	49.0~51.0%
pH	8.0-10.0
Specific gravity	1.05
Viscosity	Below 300cps
Particle size	180~230 nm
Tg	85

Applications

- White paper board
- Light weighted coated paper
- Art paper
- Thermal paper

Properties

- Excellent gloss for coated paper
- Good hiding power (opacity and brightness)
- Low calendaring pressure and temperature
- Printability
- Finishing treatment
